Have The Bulletin Follow You

Readers of The Bulletin leaving the city for vacation trips can have it follow them daily and thus keep in touch with home affairs. Order through The Bulletin business office.

OVERCOME THE DEPENDENCE.

With commerce entirely upset by the war, it is quickly realized how much this country is dependent upon other countries for certain commodities extensively used in some of our industries. This is not because such goods cannot be obtained in this country, but because those countries have manifested the proper spirit for the development of their natural resources and have therefore secured an extensive market for such materials. insufficient attention has been directed to building up such business

With no time to lay in a supply of the raw or partly wrought material before the war cloud settled down upon Europe, the importance of de-veloping such supplies as are to be veloping such supplies as are to be the establishment of peaceful condi-the establishment of peaceful condiphasis. It is only a question of undertaking the production under the required conditions, which, though they may be somewhat more costly at the start than those abroad under their present degree of development, are good business possibilities.

Europe in its present turmoil, the and of which is as undiscernible as at the start, furnishes the incentive for the development of the American busmess in these particular lines where dependence is placed upon those counries. Some such European condition is apparently necessary to stimulate the development and proper utilization of our natural resources, and being provided the opportunity which lies in this direction should not be

OVERTHROWING SUSPICION.

How conscientiously Paul M. War-burg, member of the federal reserve board, has recognized the responsibilities which go with such an office, is disclosed by his disposal of his railroad holdings and the severing of all connectitions with the large brokerage houses in New York and Germany. This is done that he may render a service to his country in the adminis-tration of the duties of the board which may fall to him, without any cause for suspicion. It is a course which is seldom taken, being one which only a few can afford to, or would be willing to follow, when it is understood what a sacrifice such a step means. Mr. Warburg, it will be remembered, faced an unfavorable report from the senate committee because he was unvilling to undergo such a heckling as had been given another nominee and the course which he has pursued shows wisdom of the committee's action in not insisting upon such a volley of

cross-fire questioning. By experience and qualifications Mr. Warburg is known to be a financier such as is demanded upon the federal reserve board, and the declaration which he has made and the action which he has taken in behalf of freeing himself from any entangling alliances, supports both the confidence which backed the president's nomination and the senate's approval. His action not only discloses his conception of the bilities, but leaves him free for the rendition of the highest kind of

A LATE RECOGNITION.

The maintenance of neutrality is not the easiest thing imaginable. There are complications which are constantly arising which require the best traind minds in international law. Thus noticable fact that in arriving at such past. decision and making a choice he has selected one of those who assisted in guiding the two previous administra-

as the department has experienced soon result in the run first and last and he felt that even Maplewood cometery.

who, were considered to the department and country to the departmental work could through their departmental work could be replaced with political friends without any loss of efficiency. It was in other words a case where a clean sweep for party plums was considered advisable. The recalling of Mr. Scott together with the added assistance of Prof. Wambaugh, indicates the condition which has developed in the Sec-retary's office, all of which could have been avoided had consideration been been avoided had consideration been given to efficiency when he assumed the duties of that office. It is a decided compliment to past administrations and to Mr. Scott who had been allowed to go, that he is now recalled for the service which he is highly fitted to render. It should be a lesson for the future but the chances of its being so are slight.

THE CANAL OPENING.

It has long been anticipated what a benefit the Panama canal would be to the commerce of the world. This is now about to be realized for with the admission of ships of the world a number of months before it was ex-pected such would be possible, and before the official opening ceremonies take place, the full meaning of this great engineering achievement is about to be unfolded in fact.

For ships of commerce the way around the world has been greatly essened and this applies equally to the movement of war vessels of neu-tral countries, while it contributes greatly to the value of our war ves-sels and their availability for service on either coast, especially in cases of emergency.

It is as an accelerator of commerce however that it will be expected to render its greatest daily service, and while it is going to bring Atlantic and Pacific coast cities thousands of miles nearer by water it is likewise going to similarly affect European trade with Australia and the Orient. It will, for Instance bring Seattle 7800 miles nearer New York make Honolulu 6600 miles nearer while it will be possible to get to Yokohama quicker by 6,000 and Guayaquil by 7400 miles. San Francisco is nearer to New Orleans by 8300 miles while Liverpool ships can reach Melbourne, Australia by the canal at a saving of 1300 miles.

Thus the canal is not only going to be of immense benefit to the commerce of this country but to the entire world and it represents an accomplishment for which this country can be justly proud and the entire world thankful.

CARRANZA'S CHANCE.

As provisional president of the republic of Mexico General Carranza assumes an office which carries with it great responsibilities, for the change from the federals to the constitutionallets does not in itself accomplish the pacification of the country. He has the opportunity however to put into operation, or to urge most strenuously during his provisional term, the principles for which he has been striving which should set the wheels in motion for the establishment of a better gov-ernment and a united people.

Just how much encouragement he is to be given for the betterment of Mexico depends entirely upon the sincerity with which his leadership is received his ability to call to his support those who are disposed to make the same trouble for him as he did for Huerta and the success with which he is able to impress other governments for their recognition and support. The disposition of this country to recognize the Carranza government, if properly constituted, is indicated by the reported selection of an ambassader to that country.

Carranza needs to devote his best tions, and the reorganization of the government under principles which will operate for the permanent progress of the country. It is a mighty task which devolves upon even a temporary president, but he comes to office without the blot which crippled Huerta's regime. He has vantages of which he must make the most, and an opportunity to render Mexico a great national service.

EDITORIAL NOTES. The least enjoyable part of a happy

racation is the end. Even though Carbajal has given was to Carranza, there still lingers a Mexican situation of some size.

European politics can be depended upon to furnish plenty of excitement mee the game gets well started.

WOMAN IN LIFE AND IN THE KITCHEN.

SUGGESTIONS FOR

THE HOUSEWIFE. Instead of using soap and water polish painted surfaces boil a pour of bran in a gallon of water an strain it.

Alcohol is better than water to clean

Rice water may be used to starch the finest lingerie garments. Porcelain pans may be whitened by adding borax to hot water.

Apply a raw onion to the sting of wasp or bee to stop the pain.

A Panama hat can be greatly whit-ened by rubbing it with cornmeal.

Cold lamb is much improved by hav-ing a cream dressing poured over it. Borax may be used to set black, or black and white, cotton goods for washing.

Bunches of sweet clover hung in the closets will, it is said, keep away moths,

Anemic children will be benefited if rubbed all over with olive oil after every meal.

WASH CELERY STALKS.

Since the Unied States department of Since the Unied States department of agriculture has discovered that it is practically impossible to bring satisfactory celery to market unless the plants have been sprayed with Bordeaux mixture, or the salts of copper, declared injurious for use in food products, two warnings have been issued, one to the housewives, telling them to wash the celery before using it and the other to the farmers, telling them that the danger in using this blight preventive was due to a faulty spraying apparatus. It should be spread at high pressure to make a fine mist instead of in a stream which settles on the leaves and runs down the stalks. In this way it settles down the stalks. In this way it settles in the roots and is not washed away by the rain, giving the celery a blue

TABLE ON WHEELS.

Steps may sometimes be saved in doing the kitchen work if one has there a table with castors on the legs. Dishes which have been washed may be piled and conveyed at one time to the closet where they belong. A family has devised a small porch table on wheels for a bungalow camp, where the meals are served out of doors. Thus the service for supper may be easily carried back and forth.

TO CLEAN LACES.

To freshen lace that is soiled make water creamy with starch, then dip lace in, rubbing it lightly with the hands, then squeeze a little, shake out and lay on Turkish towel in sun. This is especially satisfactory with allover lace. Do not iron, but stretch it out once in a while drying.

HEALTH AND BEAUTY.

Ten to twelve drops of tincture of camphor in a glass of water makes a good daily wash for the teeth.

It is said that clear complexion walte upon the consumption of or-anges. They do much to keep the di-gestion in order, and nothing makes the skin so clear and fresh as a good

The eyes should be washed after a dusty journey, for they get dirty just as the rest of the face does. An eye cup is required for this. Once having learned to use it, you will never again neglect this part of your tollet.

diet of milk. He should be given clean, cool water regularly every day. Boiled water cooled and given between feedwater cooled and given between feed-ings will often aid digestion and quiet restlessness. Regular hours, proper food and long hours of sleep are neces-sary to a healthy infant.

Good health, good grooming and a good complexion hold the secret of feminine beauty and charm, and it is a woman's own fault if she does not possess all these. Much depends upon her choice and use of her toilet accessories for eternal vigilance is the price of beauty as well as of liberty.

BAKED IN A BOX.

If your would like your picnic cake to arrive unbroken, try baking it in one of the five and one-half inch by eight and one-half inch tin wafer boxes. If the box is filled half full of cake dough it will rise nearly even with the too, leaving just enough room for icing. The cover can then be put on and the The cover can then be put on and the cake will arrive in perfect condition. A good recipe for the above sized box is the following: One cupful of sour cream, one cupful of gugar, one-half cupful of crushed walnut meats, a level temporonful each of soda, baking powder and salt, one well beaten egg and enough flour for a stiff batter. Spice to taste. The cake should be baked in a slow oven until it doubles in size a slow oven until it doubles in size, then the heat should be turned on to

HARWODD FLOORS.

Dust your hardwood floors—whether painted, varnished, stained shellacked or waxed—daily with a long handled, dry dustless mop. Such mops are to be had at comparatively little cost. They are chemically treated so that they pick up all dust.

They are chemically treated so that they pick up all dust.

Once every three weeks, or semimonthly, if necessary, go over the floor with an oil mop to clean and polish it. Sometimes it is necessary to give heel marks or scratches a rub or two with the mop in between the regular periods for polishing. When the mops become too dusty for use they can be washed without injury to their chemical or other qualities.

DICTATES OF FASHION.

Silk kimonos in pale colors are heavily embroidered with silk roses.

The flat cockade is a favorite form of decoration on the small high crowned hats. With the cloth trotteur costume the perfect collar is of fine muslin or transparent cambric.

"Take care of the tunic and the sil-houette will tale care of itself" is the new form of an old saying.

Peacock feathers are now being gild-ed before they are poised on hats of gold or blue hemp.

The little plaited frills of muslin that fall down the backs of some blouses are very quaint and attractive. Shoes become more fanciful even for ordinary day wear. Certainly, the part they play in the perfect tollette is very important.

Puffed apron tunics of silk over platted skirts of tulic and lace looped up with roses are a charming style for young girls' dancing frocks.

gown of coarse silk crepon had the

skirt draped at the sides, and the banded coat, finished with a full bas-que, sloping off to a point at the back.

Turban shaped toques display very high trimmings. Small Louis XV. plateau hats are becomingly tilted at the sides and front and very high; but there is another innovation—viz., the fronts of these plateaux are brought down over half the face like the half masks worn at French bal masques.

TO KEEP AIR OUT.

Bottles of grape juice, ginger ale, fruit sirup or any liquid of a like nature, which are to be kept for any period of time, should be laid upon their sides or placed bottom up to obviate spoiling.

This is true of any liquid which is capable of deterioration, and whose only guard is the cork. If the liquid covers the cork the moisture keeps it expanded and there is no room for air, with its resulting effect, to enter.

WORKING BUTTER.

Butter is worked enough when the salt is evenly distributed. Just when this point has been reached cannot always be told from the appearance of the butter immediately after working. But butter that has not been sufficiently worked will show white streaks or mottless after five or six hours. Whenever such streaks occur the butter must be reworked until all the streaks have been removed. To avoid mottled or streaks butter the only safe rule to follow is to work the butter twice. The first time it is worked lightly, just first time it is worked lightly, just enough to fairly distribute the salt. It is then allowed to stand six hours or longer, when white streaks will be noticeable. The butter is then worked again until the color is uniform.

NEEDLEWORK NOTES

For blankets the latest brides take pleasure in embroidering in silk, immense monograms the color of the satin ribbon with which the blankets are bound. The same monogram may be used which is selected for sheets or toweling, and a pair of handsome blankets so bound and embroidered makes a gift which will be welcomed by any bride.

To prevent "runners" starting in To prevent "runners" starting in stockings from the hose supporters place small loops of black tape or ribbon at the top of the stocking one loop for each clasp or button. Stitch the loops firmly with the sewing machine and add a row of cachine stitching haif an inch below the loops. When wearing slip the buttons of hose supporters through the loops to class when no damage can come to stockings. Even if a "runner" begins it cannot pass across the rows of machine stitches.

It is pretty, it is easy to make and it is just the thing to hang on the dresser at the side. It is not more than four inches square and is covered with place of the silk. Two crocheted medallions are then made, whipped jogether, with only one end open to form a little case, and then the pincushion is slipped into the case, the opening is basted fast, a loop of ribbon is put upon one corner and the cushion is hung diamondwise from the side of the dresser mirror. The pattern is a very dresser mirror. The pattern is a very simple one of Irish crochet, with a raised crocheted rose in the center of

ble after the mishap occurred. A clean bie after the misnap occurred. A clean piece of biotting paper should be laid under the stain and a slice of raw, ripe tomato rubbed over the surface, fresh pieces of blotting paper being substi-tuted until the ink spot has vanished.

BREAD IN JAR.

If bread and cake and similar foodstuffs are kept in large stone jars or crocks instead of a tin bread box they will keep much better, as there is very little tendency to become moldy. The heat penetrates the fin so easily that bread often becomes moldy overnight; in the stone jar the bread does not become so heated. These jars have another appeal in that they are easily

FOR HOT DISHES.

One way of protecting the handsome table from hot dishes is to make mats of round, heavy pasteboard and sew thick white buttons on them. By placing the dishes on the buttons, a circulation of air is allowed under the dish and the table is uninjured from the hot dish.

CONCERNING WOMEN.

Three queens have received the French Legion of Honor since it was instituted in 1802. Eighty per cent of the women in the nited States over 20 years of age

Norwegian women can now go into all the professions except the priest-hood and the army.

Mrs. Taft, wife of Former President Taft, has joined the ranks of the anti-

Woman physicians in the London health department must resign their positions if they marry.

Wyoming, where women have had the full ballot for forty-five years, nas the smallest proportion of unmarried women to its population of any state in the union. Lina Cavalieri, the opera star, claims

that girls should wait until they are 44 years old before marrying and also that they should have only one child. Mrs. Katherine Williamson and Mrs

Hattle Slothower of Denver have been appointed members of the newly created woman's minimum wage commission of Colors denver and Colors de CHINTZ SHADES.

It is no longer necessary to have white or green or tan window shades of hollands. Interior decorators for several years have made to order window shades of chintz to match the hangings in your rooms. New shades of chintz, glazed to make it more durable, are sold ready made by a progressive dealer.

TO CLEAN PEARL.

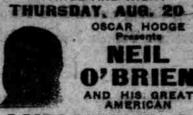

Mother of pearl articles that have become duli and blurred may be re-stored by cleaning them with pure olive oil, then applying ordinary nail brush and rubbing with chamois.

carefully. Cut them in two across and season with a little salt and pour some oil over them. Now put them on a hinged double broiler and broil them over a slow fire, keping them well basted with the oil. When done dress on a hot dish with chopped parsley.

Hub Tarts—For the tart paste, take three-quarters of a cup of pure leaf lard, using a knife, cut and work the lard into two cups of pastry flour into which has been sifted one and one-half teaspoonfuls sait. Moisten with one-half cup of ice-cold water, mixing with the knife until well blended. Toss onto a slightly floured molding board and cut dough in two, reserving part for the upper crusts. Pat and roll the halves of dough into rectangular sheets. Have ready one-half cup of softened (not melted) butter and spread it over the sheets of pastry, then roll up like jelly roll. Pat and roll these rolls into sheets and cut into rounds with a large-sized biscuit cutroll these rolls into sheets and cut into rounds with a large-sized biscuit cutter. From half the rounds cut out three or four small rounds, using a large thimble, the small end of a pastry tube or the cover to a small medicine tube. For the filling: Take the juice of four lemons, the grated rind of three lemons and three and one-half cups of granulated sugar. Put into a double boiler and bring to a boil and cook five minutes. Beat six eggs until light and add to lemon mixture, and cook until it thickens, stirring all the time.

ed nor more sincerely relied upon. Ney may be said to have been born a sol-dier. His father was a soldier and the boy was brought up amid the stir of arms and it is small wonder his

of arms and it is small wonder his tastes were entirely military. His father tried to discourage his military career and chose for him the law, but after an honest attempt to follow the wishes of his parent he gave up the struggle and joined the army.

Michel Ney's advance was rapid. Napoleon placed perfect confidence in him and after the Russian campaign and the abdication of Napoleon Ney still served France under the restoration. When Napoleon came back from Elba and Ney was sent to oppose him he and all his forces fell under the spell of their old leader and followed him to Paris.

Previous to starting to oppose the

am not a traitor. I was drawn on and misled."

The military court appointed to try him declared itself unable to try a peer of France. On Saturday, Nov. It the Duke de Richelieu, president of the council and minister of foreign affairs, rose in the chamber of peers to move a resolution for the trial of Marshal Ney in that assembly.

The trial being held in the palace of the Luxembourg, Ney was confined in an improvised prison in the palace to avoid having to escort him backward and forward from the conciderate. It was begun on Nov. 21.

The house of peers found Ney guilty by a majority of 185 to 19. The marshal's lawyers tried to get him off sy the subterfuge that he was ne longer a Frenchman, since his native town Sorrelouis had been taken from France. But Ney would hear of no such excuse. "I am a Frenchman." he cried "and will die a Frenchman." he cried "and will die a Frenchman."

Then it came to taking a vete as to

only was base enough to vote for death by the guillotine.

Early on the morning of Dec. 7.
1815, the sentence of death was read to Ney. The officers intrusted with the duty commenced to read his titles, prince of Merkows duke of Pichlusers. the cushion and a border of shells in treble crochet. These little cushious are used, when there is too much upon the dresser to think of cluttering it till further with a pincushion. The loop attached to the cushion is slipped over one of the mirror supports, and is so held up out of the way.

FOR STAINS.

Trial OF MARSHAL NEY.

Tomato juice is said to be successful in many cases in removing lik stal is from white materials, such as handkerchiefs, mustin frills, etc. It must, however, be done as soon as possible after the mishap occurred. A clean piece of blottlers.

Cook five minutes. Beat six eggs until light and add to lemon mixture, and cook until it thickens, stirring all the time.

Why cannot you simply say 'Michel Ney, once a French soldier and soon to be a heap of dust'?" At eight o'clock in the morning the marshal, with a firm step, was conveyed to the place of execution. To the officer who prepared to bandage his eyes, he said, "Are you ignorant that for twenty-five years I have been accustomed to face both ball and bullet?" Napoleon Bonaparte gave to Marshal Michel Ney his familiar title of "the kerchiefs, mustin frills, etc. It must, however, be done as soon as possible after the mishap occurred. A clean piece of blottlers are successful to be a heap of dust'?" At eight o'clock in the morning the marshal with a firm step, was conveyed to the place of execution. To the officer who prepared to bandage his eyes, he said, "Are you ignorant that for twenty-five years I have been accustomed to face both ball and bullet?" Ney himself gave the orders to fire, and thus in his 47th year the "hravest of the brave" explated what his country prohounced was his error. prince of Moskowa, duke of Elchingen, etc. But the marshal cut him short:

EVERY DAY REFLECTONS

A young manewho is working in an office and getting a fair salary writes me a letter, from which I give the excerpt below because he states the case with clearness and without trimmings:

Michel Ney's advance was rapid.

Michel Ney's advance was rapid.

Mapoleon placed perfect confidence in him and after the Russian campaign and the abdication of Napoleon Ney still served France under the restoration. When Napoleon came back from Elba and Ney was sent to oppose him he and all his forces fell under the epell of their old leader and followed him to Parls.

Previous to starting to oppose the advance of Napoleon Ney called on the king, to whom he promised to bring Napoleon back in an iron cage. Ney was no doubt sincere at the time, to the whole of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving instinct. One of my grandfathers was a tightwad and I institute of the saving institute of the

and a year. He can and a year. In other words, an provide his own old age pension. I would add a few words to drivhome the good things that this man for the inits children, he remained hid in the chateau of Bessonis, waiting to see what the attitude of the government would be.

It was there he was discovered by a zealous polico official, who caught sight of the Egyptian saher. Napoleon had presented to him in 1801. He was at once arrested and taken to Paris. This was on Aug. 3. He was conductive of the control of the great "army of the unemployed" who have been besieging our clites this winter, panhandling for the great way by the totrent. I am not a traitor. I was drawn on and misled."

The military court appointed to try tim declared itself unable to try vim declared itself unable to try vim declared itself unable to try tim declared itself unable to try time the declared the declared itself unable to try time the declared the If you only make a dollar a day save 10 cents of it.

Of the great "army of the unemployed" who have been besieging our cities this winter, panhandling for dimes and standing in line for bread, it is safe to say that nine-tenths need not have been in that condition had they saved some of their money while sarning wages.

I have no hard words for the unfortunates, but I shall not by pity be turned aside from declaring that the most unmitigated curse of the United States is the lack of thrift.

Save a bit of every dollar you get.

Do not say you can't. Do not say you need every cent to live upon. That is maudiin and weak. You can save if you will.

OTHER VIEW POINTS

Business is to start with a jump according to the best of authorities. Of course to start off on a rapid pace during the vacation period would not be in conformity to business ethics.

—Middletown Penny Press. Secretary Bryan is busy out on the

Chatauqua circuit, ekeing out his miserable pittance of \$12,500 a year by lecturing at a few hundreds of dollars a 6.17. He seems to say: "I care not who makes my country's laws as long as I get the coin."—Meriden Journal.

What puzzles the individual who occasionally puts his mind on the queer twists of Republican politics in this State is why Bridgeport should be selected for all these well billed and generously proclaimed, sweet-tempered clambakes of the Repub-licans?—New Haven Union.

Hartford is beginning to get mad over the New Haven Road's delay in replacing the burned station in that city. The officials are so engaged with more insistent and obstreperous complaints that the cries from Hartford do not seem as loud to them as they do to those who make them.— Waterbury American.

One who rides about the state cannot fall to note the great improve-ment in road construction which has ment in road construction which has come about in the last year or two, When motor vehicles first created an imperative demand for better roads, waterbound macadam was adopted as the most economical form of permanent highway. But it was soon found that these roads raveled and went to pieces under the suction of swiftly moving rubber tires. The road makers had to experiment in other directions and they have at last produced results which bid fair to be satisfactory.—Manchester Herald.

Itched and Burned. Sometimes Could Not Sleep. Cuticura Soap and Ointment Healed.

Shemold, Mass.—"My face began to break out with little red pimples then they turned to sores and itched and burned nearly all the time. They came to a bead and when I scratched turned to large spre places. My face was a terrible sight. Semetimes I could not go to sleep.

"I had tried all kinds of

ointments but without coss. Then I used Cut my face and applied Cuticura Ominums when I went to bed. It caused relief very soon and in a short time my face was a clear. Cuticura Soap and Cintmen (Signed) Miss Lottle Huggins, Jan

ECZEMA ITCHED AND BURNED P. O. Box 234, So. Paris, Ma.-"My eczems began on my arms and body. It finally spread to most all parts of the body. It appeared in small pimples which itched and burned. I would wake up in the night and scratch. Someone told me of Cuticura Soap and Cintmont. After using two boxes of Cuticura Cintment and the Cuticura Soap I was well." (Signed) Miss Fanule

E. McKeen, Apr. 4, 1914. Samples Free by Mail Although Cuticura Scap (25c.) and Cuti-cura Ointment (50c.) are sold by druggists and dealers throughout the world, a liberal sample of each with 32-p. Skin Book will be sent free upon request. Address post-card "Guticura, Dept. T, Boston."
